Some of our Key Solutions & Accelerators

DLXpress: Metadata driven accelerator for Data Lake Implementation using Snowflake on Azure, AWS and GCP

CodeXpress: Automated Conversion of legacy code to Snowflake compatible code to accelerate migration

MigXpress: Migrate data and schema to Snowflake from wide variety of data sources to accelerate modernization

Current Focus

- Create industry specific solutions on Snowflake
- Enhance accelerators and get them validated by Snowflake team
- Implement new methodologies on Snowflake like Data Vault, Data Mesh, etc.
- Hire Snowflake certified resources to further build scale
- Certify existing resources on advance certifications

“We hire our Snowflake talent through Hackathons and robust internal evaluations with a focus on deep Data Warehousing and Cloud experience along with relevant certifications”
