OVERVIEW

COFORGE ONECLOUD SERVICE FOR APPIAN
According to Gartner, accelerated by the Covid crisis, the worldwide end-user spending on public cloud services is forecast to grow 18.4% in 2021 to total $304.9 billion. Gartner predicts the cloud will become the dominant deployment model across all areas of financial management applications by 2025.

Over the last few years, organizations have been moving operations to the cloud at a steady pace to increase collaboration and productivity. Uncertainty and the likely realities of the ‘new normal’ mean a dramatic rise in businesses charting the course for their journeys toward cloud computing and digital transformation. Companies of all sizes and compositions are now moving towards software and cloud-based solutions to keep productivity levels high.

The Coforge OneCloud service for Appian helps business assess their readiness to migrate to their preferred Appian Cloud offering.

Coforge enable enterprise cloud transformation through our Appian one stop shop for all related Appian service offerings.

Our specialized services will be augmented by proprietary tools and accelerators, designed for accelerating your Appian cloud journey.

**SUPPORTED CLOUD JOURNEYS WITH APPIAN**

**Coforge Managed Cloud**

- Private Cloud with both On-premise and Cloud integration
- Completely managed by Coforge
- Highly secure

**Appian Managed Cloud**

- Provides customer virtual private Cloud
- Primarily supports Amazon Web Services Cloud
- Also supports Microsoft Azure and Google Cloud

**Customer Managed Cloud**

- Private Cloud with both on-premise and Cloud integration
- Completely or partially managed by the customer
- Highly secure

**WHY COFORGE ONECLOUD FOR APPIAN**

- **Cloud Consulting**
  - Assess your cloud readiness and secure cloud journey blueprint with on-premise premises infrastructure: cloud platform and Application Readiness Assessment tool kit.
  - Cloud assessment tool kit.
  - Coforge proprietary tools and accelerators.
  - On the 20% faster cloud adoption.

- **Cloud Acceleration Tools/Frameworks**
  - Onboard Coforge proprietary tool kit.
  - Compliant with Infrastructure as a Service (IaaS).
  - 20% faster cloud adoption.
  - Easy server maintenance by ensuring zero downtime.
  - Faster to market by enabling reduced deployment cycles.

- **Managed Cloud**
  - All cloud related services including infrastructure, feeding and support in a single service model.
  - Availability of related skills like Cloud platform SME, Appian, Database, Testing, Support Specialist in a single execution squad.
  - Leverage Coforge Cloud Assessment framework and cost calculator to predict Journey timeline and Cost.

- **Predictable Cost**
  - Uptake availability of cloud journey timeline with predictable cloud migration and maintenance cost.
  - 50% investment from Coforge on cloud consulting.
  - Guided assessment through proprietary cloud assessment framework.
  - Assessment of right cloud with 3 years cost benefit analysis.
  - 20% faster cloud adoption.
  - Easy server maintenance by ensuring zero downtime.
  - Faster to market by enabling reduced deployment cycles.
  - Smoother execution of services due to availability of all required skills in single team.
  - Hassle free execution from Cloud consulting through pre-defined SLA.
  - Competitive cost models.
This asset helps in scheduling.

Facilitates test scripts to run.
